Polymerase chain reaction (PCR) testing at

REETHI FARU RESORT

- All guests arriving to the Maldives after the 10th of September 2020 will need to provide a negative PCR test taken at least 72 hours prior to their arrival at Male' International Airport.
- Following the most recent requirements from certain airlines and countries for their travelers to provide a negative PCR test certificate upon their outbound travel journey, Reethi Faru is facilitating PCR testing for those guests with this compulsory requirement.
- Where applicable, the PCR Testing Procedure will be as follows:
- Supplement cost of USD 150.00 per person to be settled on arrival at the resort:
- Each PCR Test will be done through our well-trained medical team whenever possible, at the resort.
- Reservations for PCR testing should be made latest 4 days prior to departure.
- Reservations for PCR testing will priorities guests with compulsory requirement for certificate to travel from the Maldives.
- An Airline or Government requirement document needs to be presented upon making the PCR testing reservation with our team.
- For more information and clarifications regarding your travel, guests can reach out to the Reservations Team or their Travel Agent.
